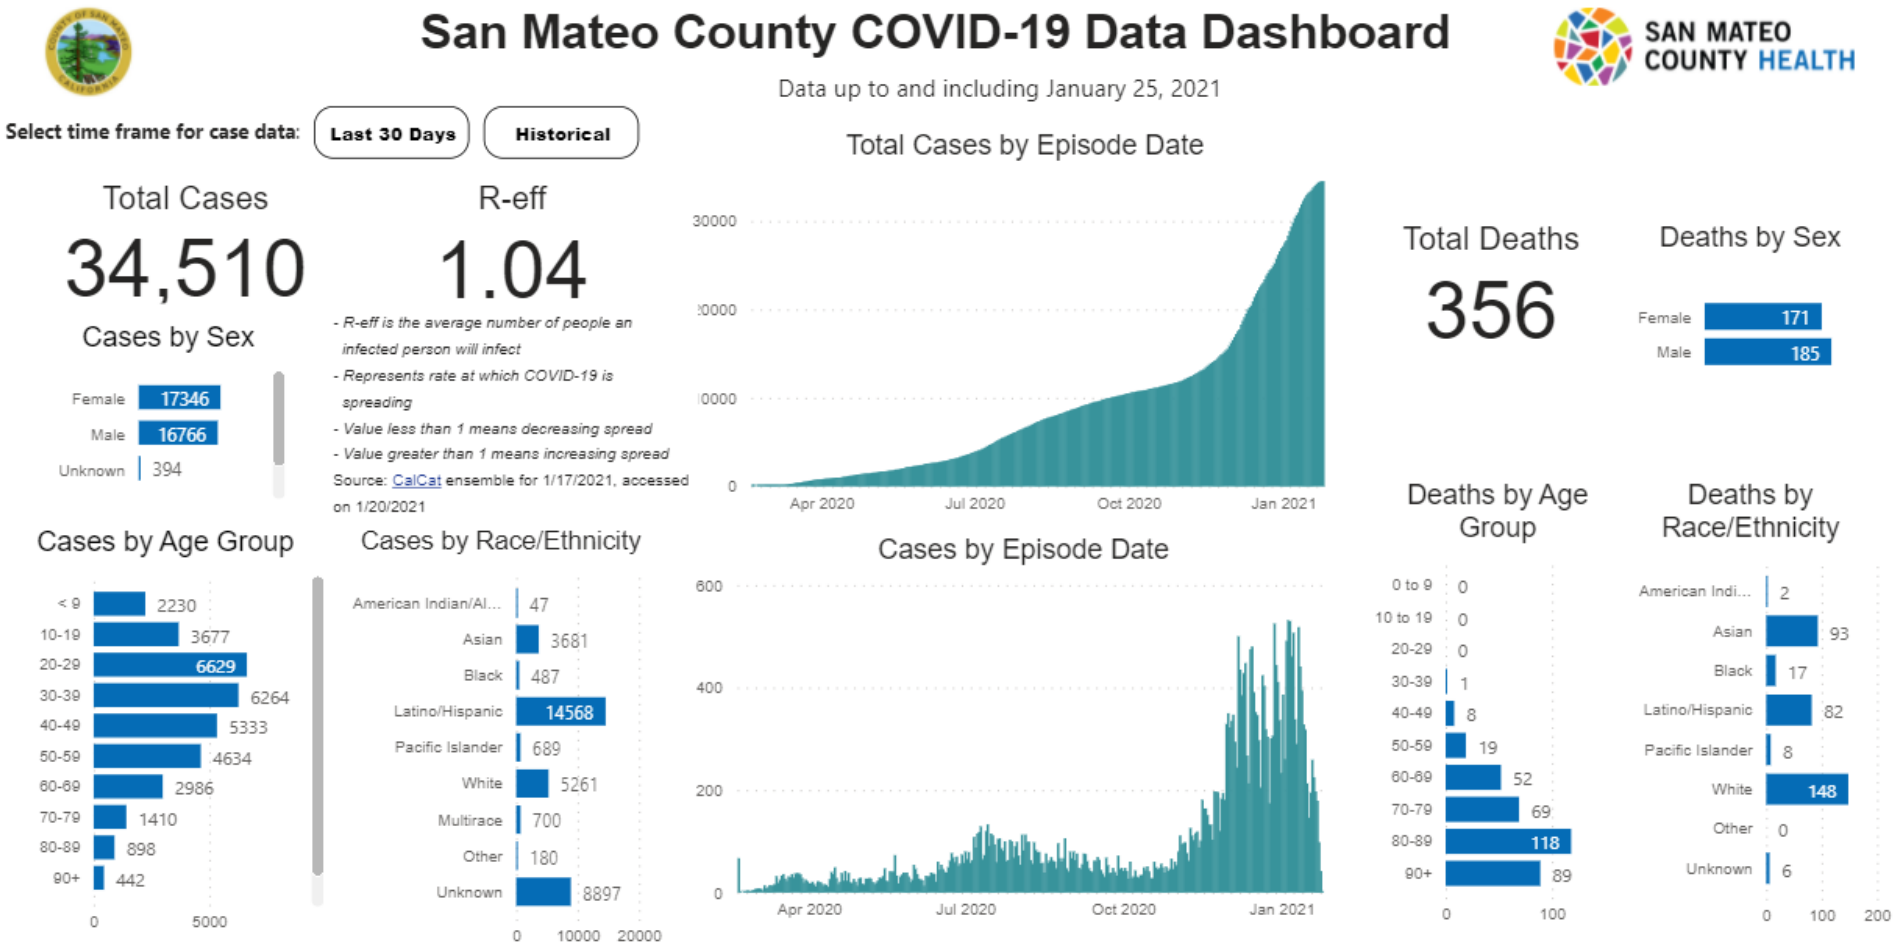
COUNTY STATISTICS

County COVID-19 Statistics



Because of limited testing capacity, the number of cases detected through testing represents only a small portion of the total number of likely cases in the County. COVID-19 data are reported as timely, accurately, and completely as we have available. Data are updated as we receive information that is more complete and will change over time as we learn more. Cases are lab-confirmed COVID-19 cases reported to San Mateo County Public Health by providers, commercial laboratories, and academic laboratories, including reporting results through the California Reportable Disease Information Exchange. A lab-confirmed case is defined as detection of SARS-CoV-2 RNA in a clinical specimen using a molecular amplification detection test. Cases are counted by episode date; episode date is defined as the *earliest* of: case symptom onset date, sample collection date, date of laboratory result, or date of death. Deaths reported in this dashboard include only San Mateo County residents; death data last updated January 25, 2021.

County COVID-19 Statistics

Total Individuals Vaccinated

48,826

as of

01/25/2021

County Population: **780,273**

% Vaccinated: **6.3%**

Date Administered

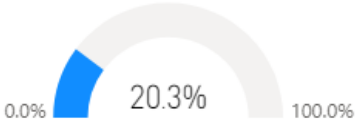
from

1/4/2020 1/25/2021

Individuals Who Completed Vaccination Series

9,924

% Completed Vaccination Series



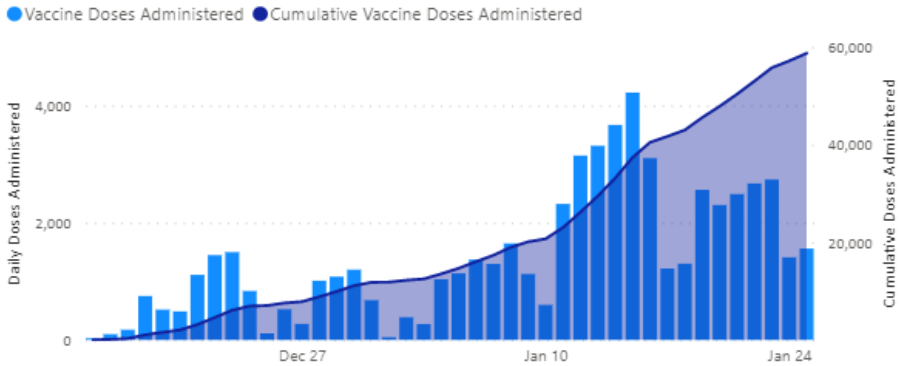
Total Vaccine Doses Administered

58,750

COVID 19 Vaccinations of San Mateo County Residents

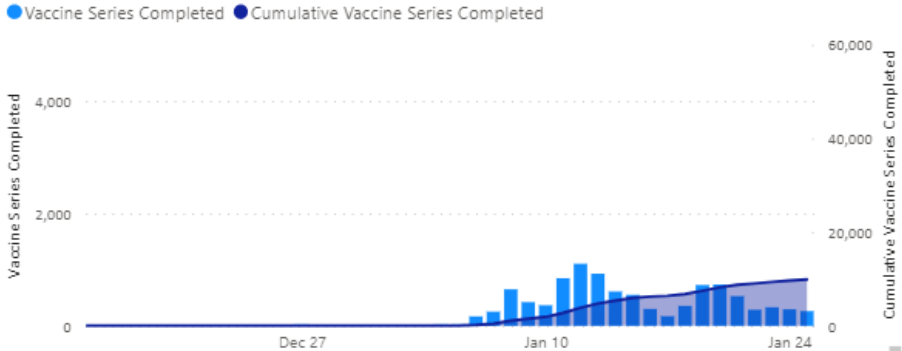
Vaccinations for San Mateo County residents are reported to SMC Public Health via the California Immunization Registry (CAIR2). COVID-19 vaccine administration data are reported as timely, accurately, and completely as data become available. Previous data will change as new and updated data are received.

Vaccine Doses Administered by Date



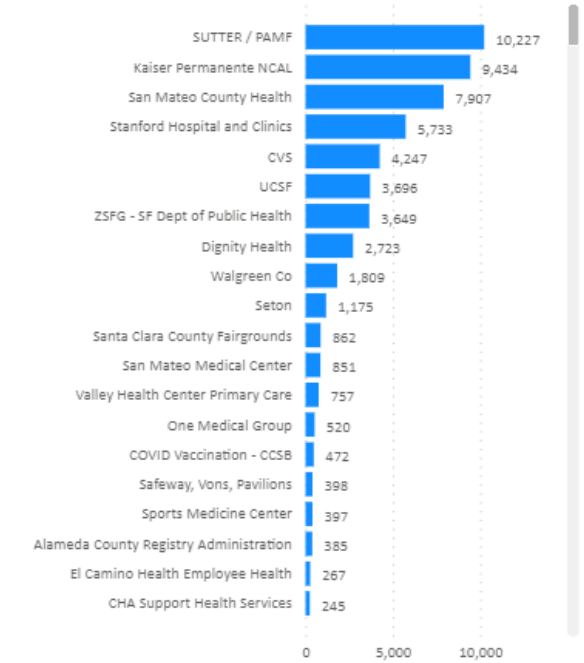
Note: The first vaccine dose administered to a resident was on January 04, 2020

Vaccination Series Completed by Date

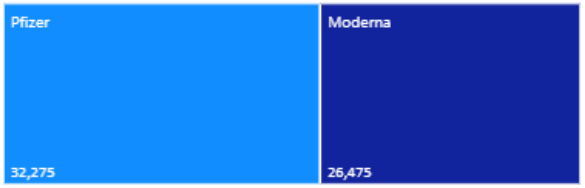


Note: Vaccination series completed indicates that a resident has received the second dose of a two dose COVID-19 vaccine (Pfizer and Moderna) or one dose of a one dose vaccine. Only two dose vaccines are currently approved and available.

Vaccines Administered By



Vaccines Administered



Vaccinations administered as part of federal health care organizations or programs such as the Veterans Administration (VA) and the Pharmacy Partnership for Long-term Care program (through CVS and Walgreens) report to federal immunization systems, may not report into CAIR2, and may not be included in vaccination numbers on the dashboard.
