**Subject:** Council Agenda Item 7 A - Centennial Plaza

August 20 2022

San Bruno City Clerk

Please add my comments to the posted Council agenda for the August 23rd 2022 meeting under

**7 A - STUDY SESSION**

a. Direction on the Proposed Conceptual Plan and Potential Funding Sources for the Centennial Plaza Renovation Project

My Questions:

1. Is the projected total project cost of \$842,806.00 as shown on page 184 of the agenda packet the best use of this \$842,806.00 dollars when the City is seeking funds for other needs?
2. Could these funds better fund other City needs?
3. What study has been done and what were the results regarding the anticipated possible effect of the winds coming down Jenevein Avenue?

In the past when the City held an event that included canopy covered booth on Jenevein, the wind was a problem.

In the past when the Chamber held Farmers' Markets on San Mateo Avenue including up to Jenevein Avenus wind was a problem,

When the City held Farmers' Markets in the parking lot in front of Tanforan, winds from the west were a problem.

Airplanes daily take off from SFO heading west over the houses in the Belle Air into the winds from the west.

Robert Riechel

Thank You
