Chrome's built in Antivirus   **Tip #9**

Did you know that Google Chrome has a built in anti virus that you can run?
Try it out
Open Google Chrome, then click on 3 vertical dots in upper right corner (opens menu)
Scroll down to settings and left click
Scroll all the way down to bottom and left click on Advanced
Scroll all the way to bottom again and you'll see Clean up Computer
Left click on it and then left click on Find
Program will run for a few minutes and then tell you what the status is
